A full 2 hours seemed like a long class with alot of information to absorb. I started glazing over after about an hour and 15 minutes, mostly because there is so much material. Perhaps 2 shorter learning sessions.	10377308	Roberts, Jami	Nov 04 2005

It is my observation that this software is combursome to use. It is difficult to find the dates for classes already emrolled in IE: I was onthe wait list for yesterdays class and I did attend but this morning when I went ot unenroll in a NOV class it was very hard to find which date I needed to cancel. Date & time should be attached to the specific activity. Also the "click here for more help" button only take sme back to the home page....this is not helpful when I am looking for more specific or more detailed information.	83809006	O'Donnell, Lorelei	Oct 28	2005
